

The Sports Science Institute is a four year partnership between Fresno Unified School District (FUSD) and the Kinesiology Department at California State University, Fresno designed to provide FUSD students with hands-on experiences within the fields of Exercise Science, Athletic Training, Sports Psychology and Physical Education. Through this initiative, students learn about and generate career and post-secondary interest in Kinesiology and Fresno State.

Over 80 students, representing each of Fresno Unified’s high schools and Health Pathways, have participated in the Sports Science Institute thus far.
