Introduction:

Fresno State (University) aims to provide a working environment that minimizes the potential for workplace violence and other safety/security risks. Violence in the workplace poses a significant threat to the safety and wellbeing of our employees and the general public. It is the responsibility of all employees to help minimize workplace violence. This policy establishes procedures to minimize the threat of violence in the workplace and provides guidelines for responding promptly and effectively to workplace violence.

Note: The following employees are not subject to this plan

- *Employees teleworking from a location of the employee's choice, not under the control of University (e.g., employees working from their home; telecommuting).*

Purpose:

The purpose of this plan is to:

- Identify the names and job titles of the persons responsible for the implementation and maintenance of the Workplace Violence Prevention Plan (WVPP).
- Highlight how employees can report violent incidents, threats, or other workplace violence concerns, and how to respond to reports.
- Reinforce against unlawful retaliation for reporting, in good faith, violent incidents, threats, or other workplace violence concerns, and participating in any related investigations of such reports.
- Outline procedures to respond to actual or potential workplace violence emergencies.
- Detail training requirements about this plan, including the frequency of training.
- Outline procedures to identify and evaluate workplace violence hazards.
- Communicate post-incident response and investigation processes.

Definitions:

Workplace violence refers to any “act of violence or threat of violence that occurs in a place of employment.” It includes, regardless of whether an employee sustains an injury, the threat or use of physical force against an employee that results in or is likely to result in injury, trauma, or stress, as well as incidents involving a threat or use of a firearm or other dangerous weapon.

A “**threat of violence**” means any verbal or written statement, including, but not limited to, texts, electronic messages, social media messages, or other online posts, or any behavior or physical conduct that conveys an intent, or that is reasonably perceived to convey an intent to cause

physical harm or to place someone in fear of physical harm, and that serves no legitimate purpose.

There are four common types of workplace violence:

- **Type 1 Violence:** Workplace violence committed by a person who has no legitimate business at the worksite, including violent acts by anyone who enters the workplace or approaches workers with the intent to commit a crime.
- **Type 2 Violence:** Workplace violence directed at employees by customers, clients, patients, students, inmates, or visitors.
- **Type 3 Violence:** Workplace violence against an employee by a present or former employee, supervisor, or manager.
- **Type 4 Violence:** Workplace violence committed in the workplace by a person who does not work there but has or is known to have had a personal relationship with an employee.

Workplace violence does not include lawful acts of self-defense or defense of others.

Roles and Responsibilities:

The Director of Environmental Health and Safety has the authority and responsibility for implementing and maintaining the provisions of this WVPP program for Fresno State.
