

Dear Campus Community:

Beginning Wednesday, February 8, the sidewalk east of the Maple Circle roundabout will not be accessible as the Central Utility Plant Replacement (CUPR) contractor extends the safety fence to complete work in this area. The team is working as quickly as possible to reopen the Maple Circle by the end of the month. Pedestrian traffic will be temporarily redirected as indicated [here](#) in blue.

Also, as part of required fire lane improvements to support renovation of labs within the Conley Art building, new concrete will be poured next week on the sidewalk south of the Peter Business Building and north of Conley Art. As indicated in red [here](#), the sidewalk will be closed to pedestrian traffic Monday, February 13 through Monday, February 20.

Signs indicating alternative pedestrian paths of travel will be in place. Please be sure to allow for additional time as you walk across campus through these areas.

To ensure the safety of our students, faculty and staff, we want to make you aware of several accessibility resources available to assist and support you (if needed) as you navigate your way across campus.

Map of Construction In Progress

Our interactive [map](#) outlines the ADA path of travel (indicated in blue). This map will be updated regularly as construction progresses. It is also available on the [Fresno State Mobile App](#).

Transportation Services for Students and Employees with Disabilities (SCOUT)

Services for Students with Disabilities, in collaboration with Fresno State Traffic Operations, provides on-campus transportation to students and employees with qualifying permanent or temporary disabilities.

- Students - please contact Services for Students with Disabilities at (559) 278-1900 or email ssdstaff@mail.fresnostate.edu.
- Employees - please contact your Human Resources confidential leave coordinator at (559) 278-2032 or hr@csufresno.edu.

For any questions or concerns, please contact Meredith Sandrik at mbooey@mail.fresnostate.edu or the Facilities Management Service Center at 559.278.2373.
