

06/30/2022

Colleagues:

As part of the Central Utility Plant Replacement (CUPR) Project, a contractor will perform work on the existing hot water pipeline to prepare for ventilation system upgrades. This work will **not** impact the operation of sinks, water faucets, restroom facilities, or eyewashes and safety showers.

Building Schedule

July 1, 2022 - Ag Mechanics
July 5, 2022 - Ag Science
July 6, 2022- Satellite Student Union
July 11, 2022 - Science

Impacts

- There may be intermittent audible construction noise

Questions/Concerns?

The contractor team wears proper identification and will be working in accordance with federal, state, and local safety and environmental regulations.

We apologize for any inconvenience and appreciate your patience while work is conducted. Please contact the Facilities Management Service Center if you have questions or concerns.

Sincerely,
Facilities Management
