

8/10/22

Colleagues:

As you may be aware, we are well underway on the Central Utility Plant Replacement Project (CUPR) that includes installation of new underground piping throughout campus. New fencing will be installed just south of Thomas Administration beginning next week. Please visit our [interactive map](#) and zoom in to see the additional fencing.

Potential Impacts:

- **Thomas Administration South Exit Door**- Egress will still be possible and will be guided east only (toward San Ramon Ave). Westbound pedestrians (headed toward the Memorial Fountain) exiting via the south door will need to follow the detours around Thomas Administration.
- **Electric Carts**- FM Operations staff will be in contact with Thomas occupants to relocate your carts while we are coordinating your moves to the University Student Union.
- There will be impacts to pedestrian traffic. Please plan for additional time as you walk through this area of campus.

Questions/Concerns?

Please contact Facilities Management at 559.278.2373 if you have any questions. Feedback can also be provided [here](#).

More information on the project can also be found on the CUPR [website](#). Thank you for your cooperation and understanding.

Sincerely,

Facilities Management
