

# DISCOVERe

## Our Team

DISCOVERe faculty participate in an intensive one week Summer Institute and have the ongoing support of a team of stakeholders including the bookstore, course scheduling, technology services, instructional designers, classroom services, and our DISCOVERe HUB. This team approach enables a continuous process of learning and reflection leading to increased student success.

Affordable Learning Solutions  
just a choice away.

There is a significant cost savings on DISCOVERe course materials compared to traditional courses. Faculty:

- Reduce the costs of instructional materials to the extent possible
- Consider open educational resources (OER) and Affordable Learning Solutions (AL\$)
- Apply universal design principles in production of all course materials

## BOLD IDEA

DISCOVERe tablet program is at the core of President Joseph I. Castro's bold vision of finding new ways to teach that will engage and challenge students to improve their success in the classroom. It's an aggressive initiative to break down the digital divide and rethink educating tomorrow's leaders. #FSDISCOVERe
