

Build an over bridge at locations where there is more foot traffic.

CURRENT CHALLENGE:

Pain/situation: Crossing streets during peak hours when there is vehicle traffic as well as lot of students walking to and from classes.

PROPOSED SOLUTION:

Solution: Build an over bridge at locations where there is more foot traffic. Also, build over bridge at the sections of the university those are connected to Shaw as well as Barstow.

BENEFITS TO FRESNO STATE:

Less traffic. Students can reach classes on time. No panic/hurry. Safe and convenient for vehicles as well as people who are walking.
